Bucknell Austin
- **Architect:**
Richard Griffiths
- **Quantity Surveyor:**
Bucknell Austin
- **Principal Contractor:**
Harry Neal
- **Value:** £50K
- **Date:** 2005

Description

The Garrick Club is the oldest retained stucco render frontage in London.

The works involved:

- A meticulous hammer test survey identified the need for stucco repair to plain work and embellishments; the result is an almost unrecognisable façade.
- Repair and re-rendering of the stucco front elevation using Unilit lime products.
