## **Description**

Cleaning and repair of existing white Bianco Carrara and Pentelican marble to the basement swimming pool and Turkish baths, plunge pool and treatment rooms.

## **The works involved:**

- Refurbishment works included the re-use of much of the original material plus designing, manufacturing and installation of new material comprising:-
  - Recording, removal and storage and re-fix existing cladding.
  - New floors to falls in wet rooms but level in dry areas.
  - New Marble clad wall.
  - Treads and risers fitted with anti-slip inserts.
  - New Vanity units and make-up counters.
  - All areas were finished with marble skirtings and architraves.
  - New linking marble staircases.
- Stones used include: -
  - White Carrara
  - Verdi Guatamala
  - Botticino
  - Pentelican
  - Mosaics
